

FREEDOMWAND LOADING INSTRUCTIONS

1. Fold your toilet tissue into a rectangle, amount will depend of the thickness of your tissue

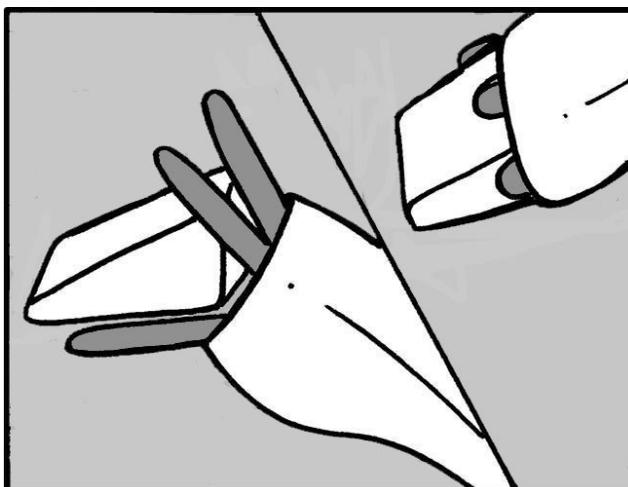

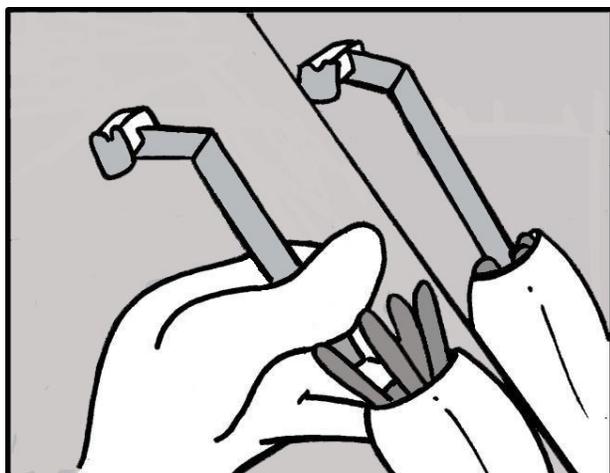

2. Pinch the center of your folded tissue to make a point about the size of your pinky finger

3. Insert the point of the tissue **DEEP** into the open grippers and pull them all the way back into the FreedomWand® for a firm hold. **Putting enough tissue deep enough and pulled all the**

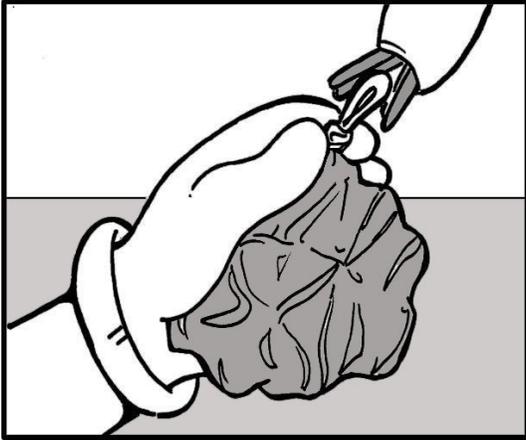

4. Use a disposable type shaver with a small square handle such as a Bic. Insert it deep into the open grippers and pull all the way back in aligning it with the curve of the FreedomWand®

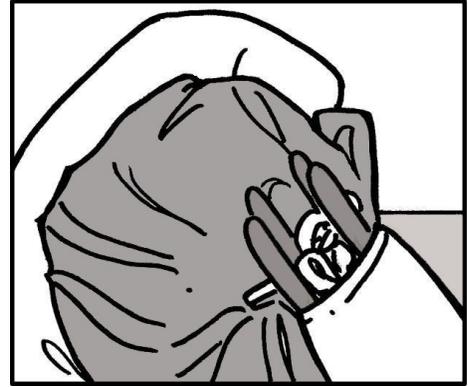

5. Use a makeup applicator or cut a sponge into a triangle shape for applying lotion or medicated cream to those hard to reach places such as toes, backs, hemorrhoids etc.

FREEDOMWAND LOADING INSTRUCTIONS

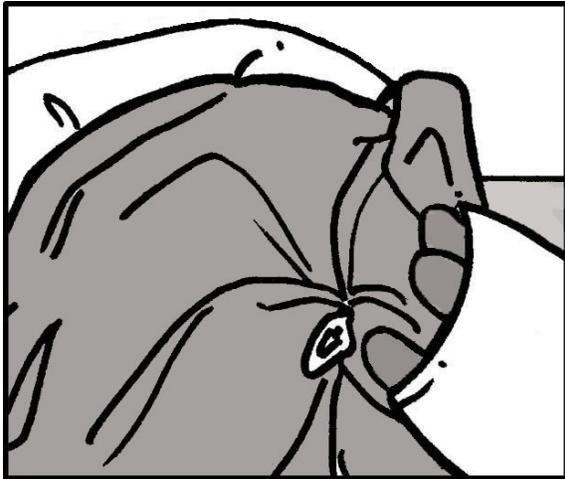

6. Tie a knot in your loofah rope very close to the nylon netting. Depending on the thickness of your rope you may need to 2 or 3 knots on top of each other making one large knot to be about the thickness of your pinky finger

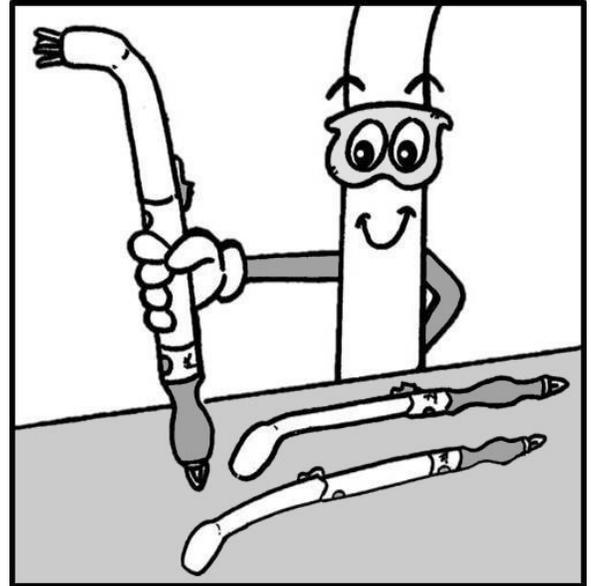

8. Or grab it from the side putting the knot deep into the base of the grippers

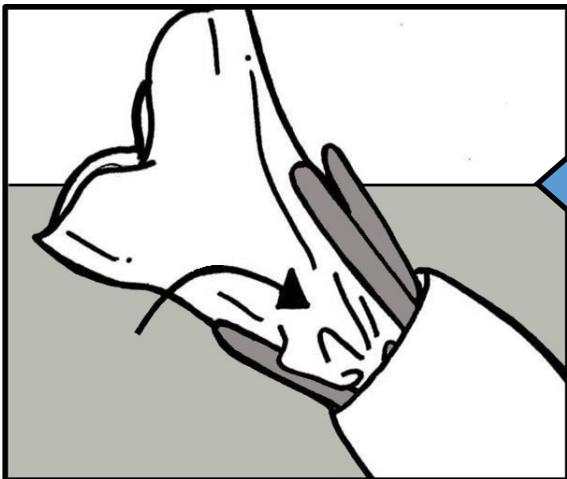

7. Grab the knot either from the top

9. The Loofah is properly loaded when the knot is the right size, is put deep into the grippers and pulled all the way back into the FreedomWand®

10. You can use your FreedomWand® at either 14", 21" or if you have ordered extra extensions up

INCORRECTLY LOADED

If you have too much tissue bulging around the grippers, do not have enough tissue or do not pull the grippers all the way back in, it will not load or hold properly. Once you "get it" using your tissue or wet ones you will LOVE IT!
